OUTLINES.

Robert G. Proctor, private secretary to Senator Lodge, of Massachusetts, at Boston yesterday was sentenced to ten months for stealing $225 from the Republican campaign fund; Senator Lodge was before the grand jury as a witness in a case against a District Attorney under indictment for contributing to the Republican convention fund.——The valet of Harry K. Thaw, slayer of Stanford White in New York, died yesterday and thus an important witness against Thaw is removed; Thaw is receiving hundreds of letters proposing to give evidence as to White's misdoings.—— Secretary Shaw yesterday called for bids for $30,000,000 Panama Canal bonds, and it considerably disturbed the New York bond market because of the glut of securities already hard to handle on the Stock Exchange.——The government commission will meet to-day to prepare for the erection of five buildings and a replica of the Washington monument to be reared on the grounds at the Jamestown Exposition. ——In a horrible railroad wreck at Salisbury, England, Sunday morning 23 people were killed, most of them having sailed from New York ten days ago; among the killed was a New York man whose wedding on the 18th of June was attended by Stanford White, who was killed a few days by Harry Thaw.——Chairman Tawney (Rep.), of the House Appropriations Committee, again explains the extravagant appropriations of Congress, but Representative Livingston (Dem.) shows that the big expenditures is to prevent any reduction of tariff taxes. ——Money on call strong and higher, 5¼ to 8 per cent., ruling rate 6, closing bid and offered at 6; spot cotton quiet; flour quiet and less steady, owing to the break in wheat; wheat easy, No. 2 red 90 3-4 nominal elevator; corn easy, No. 2 59 3-4 nominal elevator; oats easier, mixed 43 to 43½; turpentine firm; rosin steady.

Now that Congress has adjourned it may be an item that Vesuvius is still engaged in mud-throwing stunts, and that the political campaigners will soon take the lid off.

If anybody should beat Ben Tillman for any kind of an office in South Carolina it certainly would be curious to hear him explain how it was that the "wool-hat boys" got "bamboozled."

"What is the duty of the State?" asks an esteemed contemporary. From now till November it should be to see that the Republican party is kept on the scrap pile.

Says the Norfolk Landmark: "Now the Jamestown Exposition is an assured success. But it rests with us how great the success shall be. Let us all get together and push." Well, it's not to be supposed that a North Carolina town like Norfolk is going to "fall down" on the Exposition.

In Boston "culcher" is discussing "Things Grotesque." To see things like that the Bostonians ought to attend the Republican State convention at Greensboro next Tuesday and watch North Carolina Republicans trying to act decent in the presence of Secretary of War Taft.

A Washington dispatch says the Presidential boom of Secretary Taft is to be launched at Greensboro next Monday night when the ponderous Secretary of War will deliver an address on the eve of the assembling of the North Carolina Republican State convention. Taft ought to have better luck.

The Greensboro Industrial News (Rep.) remarks of the Republican party that "so long as it is torn by internal dissensions and split into contending factions it can never hope to bring North Carolina into the Republican column." Even if the Republican party didn't have any "internal dissensions" and even if it didn't have any "split," North Carolina wants to march in a different column from the piebald crowd that thought a negro miscegenationist like Fred Douglas was entitled to such honor as to have their Legislature adjourn as a mark of respect to his memory.

According to the time-honored custom in Wilmington newspaperdom, the Star will suspend publication for the Fourth of July and subscribers may, therefore, expect no paper on the morning of Thursday, the fifth. BOARD OF ALDERMEN

Regular Monthly Meeting of City Council Taken Up With Routine Matters.

THE GASOLINE ORDINANCE

Upon Objection, It Went Over Until Next Meeting—Other Ordinances Proposed—Standing Committee Reports.

The Board of Aldermen was in session only about three hours last night and much of that time was given over to hearing reports of standing committees and disposing of routine business. Nothing really important was done at the meeting.

The Board met shortly after 8 o'clock, all members present except Mr. Moore, who was excused. Some time was consumed in reading the minutes of previous meetings, so that it was 8:30 o'clock before the Board got down to business. The record was amended to make motion of Alderman W. E. Yopp read as carried that Fourth, between Nun and Castle streets, be next macadamized.

Chairman W. H. Yopp, of the Finance Committee, moved that gasolene boats engaged in towing be also taxed $25 per year, the same as steamboats.

Chairman O'Brien, of the Streets and Wharves Committee, asked for the official action of the Board of Audit and Finance in regard to the Chesnut street paving. The matter was continued until the next meeting. Mr. O'Brien read a letter from the City Livery Co., relative to feeding the city live stock. The division of the bids for feeding and shoeing was discussed at some length. The original bid of the City Livery Co., was referred back to the Board of Audit and Finance with the letter of the City Livery Co. Upon motion of Chairman O'Brien, it was decided to accept the bid of Roger Moore for terra cotta pipe in car loads, the retail prices being much larger.

Mr. O'Brien read a letter from President Taylor, of the Chamber of Commerce, calling attention to the need of paving the street in front of the S. A. L. freight warehouse, Mr. Johnson made a motion that the Streets and Wharves Committee take immediate action to have the street paved with Belgian block. The motion was carried. Mr. O'Brien called attention to the dangerous conditon of the wharf at foot of Chesnut street. Chairman Rathjen made a report of the condition of the wharf in connection with the fire boat slip and said the money could not be obtained from the Board of Audit and Finance. A motion was made insisting on the repair of the wharf in its entirety. The matter of sidewalk grade in front of the Holmes Grocery Company was referred to the City Engineer and the City Attorney.

The Clerk read various and sundry communications presented by Chairman O'Brien, of the Streets and Wharves Committee, relative to improvement of streets and sidewalks. One of these was from Mr. W. A. Willson, Jr., who complained of an overflow of his property near Tenth and Market streets. Mr. Willson was present in person and asked to be relieved. The matter was referred to the chairman of the Streets and Wharves committee with power to act.

Another of these communications was from Mr. George R. French relative to the horrible condition of Ann street, from Front to Third street. The communication was placed on file.

A petition was read from Culpepper & Stellman asking for permission to carry on a wheelwright business, on Front, between Orange and Ann streets. The petition was granted.

Chairman Rathjen, of the Fire Committee recommended the election of J. A. Hines, G. H. Holmes, A. C. Peterson, and R. F. Liles to the positions of firemen, vice J. M. Janes, S. A. Nichols, C. H. Tatum and E. V. Hughes, resigned The committee also reported that the slip for the fire boat would be completed this week, the work having been delayed on account of high tides in the river.

Chairman Johnson, of the Water Works Committee, reported that the expert on the municipal ownership propositon would be here July 10th. The well contractor had been ill and

CLANS GATHERING

Fifth District Congressional Convention and State Meeting Throng Greensboro Town—Bryan Loud and Vociferously Applauded.

(Special Star Telegram.)

Greensboro, N. C., July 2.—The Fifth District Congressional Convention tonight renominated W. W. Kitchen for Congress. Mayor O. B. Eaton, of Winston, made the nomination in a strong speech. Mr. Kitchen was conducted into the hall and made a powerful speech defending his ccurse in Congress.

He designated Bryan as the "foremost man in the world" and predicted that he would be nominated for the Presidency in 1908. At the mention of Bryan's name the convention broke into tremendous cheering which lasted for some time.

Judging from the number of Democrats who have arrived at this time to-morrow's session of the tSate Convention will not be a largely attended one. Senator Simmons, State Chairman, arrived to-night. Congressmen Claude and W. W. Kitchen and G. B. Patterson are among others who have arrived. R. N. Hackett and W. T. Crawford, Congressional nominees, are also here. Among other prominent Democrats here for the meeting are Secretary of State J. Bryan Grimes, Corporation Commissioners, McNeill and Beddingfield, State Superintenrent of Education Joyner and Lieut. Governor Winston.

The convention will meet at noon, hear a speech of Temporary Chairman Locke Craig, appoint committees and adjourn for dinner. In the afternoon session a Corporation Commissioner will be nominated and the other nominations of several Superior Court judges will be ratified. At the night session a platform will be adopted. It is expected that the session will end by midnight.

DR. ELISHA PORTER

Highly Esteemed Eastern North Carolinian Entered Into Rest Sunday Morning.

THE FUNERAL HERE TO-DAY

Distinguished Honors to Be Paid By Veterans and Masonic Fraternity —A Man Universally Loved and Esteemed.

Dr. Elisha Porter, easily the most influential man in Pender county and a gentleman held in the highest regard by the people of this entire section of the State where he was well and most favorably known, died at Rocky Point Sunday morning at 7:30 o'clock. Dr. Porter had been in poor health for some time and while his condition had been critical for several weeks, there were few who realized that he was so near unto death's door. The announcement of his death will come with infinite sorrow to a very great many warm friends all over this section of the State. Dr. Porter had been confined to his home for several months with a very grave heart disorder and hope for his final recovery had been abandoned some time.

Dr. Porter was born in Martin county, this State, June 26th, 1832, and had therefore just passed his 74th birthday. However, he was remarkably well preserved and until his last illness was actively and constantly engaged in looking after his various large interests both at Rocky Point and in Onslow county, where his earlier manhood was spent. Dr. Porter was the soul of geniality and drew all within the scope of his acquaintance to him in ties of lasting friendship. He was the embodiment of honor and all that goes to make for good citizenship. His kindly presence in this community and especially in that immediate section where he resided will be sadly missed for years to come. Early in life Dr. Porter married Miss Caroline Alexander, a daughter of the late Charles Alexander, of Topsail Sound and a sister of Dr. Levi Alexander, now of Topsail. She has remained with him faithful to the end and with one son, Dr. Elisha Pender Porter, of Brooklyn, N. Y., survive him and have the heartfelt sympathy of all in their deep bereavement. Dr. Porter was devoted to his family and friends and this was one of the distinguishing characteristics in his noble and generous character.

Although a physican by education, Dr. Porter practised the profession only a short time and devoted himself largely to scientific farming at which he was abundantly successful. He was largely instrumental in the development of the giant trucking industry in this section and took a lively interest in all things looking to the up-

EXCUSE EXPLODED.

The Star mentioned on Sunday that one of the bills which the Administration failed to push and get through Congress was the anti-election corruption fund bill. In last Tuesday's issue, the New York Tribune (Rep.), made a spirited and an almost pathetic appeal to the Representatives of its party in the House to pass the Senate bill forbidding poltical contributions from corporations. The Tribune described the strict provisions of the bill and the scandaous evils against which it was directed, and concluded:

"It would limit campaign subscriptions this year to individuals and break down the vicious system into which we had fallen of relying for success in politics on the activities of hired workers and the mysterious strategy of chieftains at headquarters. The country is anxious to try the experiment of electing a Congress without the mediation of this antiquated machinery. It wants to see Representatives chosen on their merits and their public records, not propelled into office by virtue of secret pledges and subterranean alliances. The House has it in its power to sanction such an experiment this Fall, and it will misread the signs of the times if it decides to give old abuses a free rein in one more National canvass."

The New York Times (Ind.) makes this reply to the Tribune:

"The bill has not passed, and the Washington correspondent of the Tribune explains, apparently on the authority of Mr. Sherman, chairman of the campaign committee, that it was due to the wicked Democrats who remained away from the committee that had the bill in charge and left it without a qourum. Why the majority of a committee should be dependent on the minority for a qourum he does not explain. The fact remains that the bill is dead. The President might have saved it had he used half the earnestness in pressing it that he devoted to other and less important measures. The leaders of the House, Mr. Cannon alone for that matter, might have saved it. The responsibility is plain enough. Meanwhile we congratulate the Tribune on having done its best in a cause which its party managers refuse to support. It is right in thinking that sound public opinion is with it."

That ought to give the Tribune ease.

OUR EXCHANGES.

Col. Al Fairbrother's "Everything," published at Greensboro got out a 52-page issue last Friday. The occasion was the third anniversary of the magazine—one with a mission and in every respect a splendid journalistic enterprise. The anniversary issue was an elaborate and magnificent publication and the Star congratulates Everything both upon its third birthday and the complete issue gotten out in commemoration of its anniversary. "Everything" is a paragon of excellence at all times and it is worth its place around any fireside. You will find things in the magazine pungent and philosophic, but whether the Colonel writes it all is not known, for the Mrs. Colonel can take a hand when something's to be done.

The Star notes a change in the staff of the esteemed Elizabeth City Daily Economist, but regrets to learn that it was brought about by the illness of Mr. F. F. Cohoon a large stockholder and business manager, and to whom the paper is largely indebted for its success. Mr. Spencer Chaplin is editor, Mr. S. B. Underwood city editor, and Mr. H. B. Miller, formerly of the Free Press and Daily Times, of Harrisburg, Va., becomes business manager. Beginning today the Economist will appear as a morning instead of an afternoon paper, and under its new auspices the Star wishes to its esteemed contemporary a successful future.

CONVICTING BLACKBURN.

The Raleigh Caucasian, former Senator Butler's weekly newspaper, says:

"We should not forget that the evidence against Blackburn in his recent trial was stronger than the evidence against Senator Burton. Senator Burton was convicted and his conviction has just been sustained by the Supreme Court of the United States. They were both charged with committing the same offense, and if Blackburn is not guilty, then Burton is not guilty. This will all be brought out by the Democrats in the campaign, and not one word of it can be denied, for the evidence is a matter of record.

"But everyone knows that even if Mr. Blackburn were not guilty of this charge, that he is by nature wanting in both the necessary character and brains. Then why nominate a weak candidate, simply because he has escaped the penitentiary?"

The Caucasian is edited by Senator Butler's brother and the inference one would draw from his editorial (if he wrote it) is that the United States District Court at Greensboro whitewashed Blackburn. It would appear that the Caucasian editor has more evidence than was brought before the court. The main point in the Caucasian's constant attacks on Blackburn however, is that there does not seem to be any prospective harmony in the radical camp.

SENATOR SIMMONS AS A MAGAZINE WRITER.

The Independent is a weekly magazine published in New York and probably no publication of the magazine class keeps so close to current topics and passing events. The isue of June 28th contains a list of distinguished contributors and among them is United States Senator F. M. Simmons. LL. D., of North Carolina. Dr. Simmons discusses "The Poltical Future of the Southern Negro" and he handles the subject in chaste English and from the view point of one who is familiar with his subject and knows how to handle it. It is a calm, dispassionate discussion of a subject for which Senator Simmons is eminently fitted by ability, observation, and experience from having been up against it in a practical and not a theoretical way. In the rather circumscribed scope of the article on a subject of such expansive limitations, the North Carolina contributor compasses the problem in a direct, impressive and convincing statement of facts.

The Independent contains a likeness of Senator Simmons and a brief introduction from the editor.

PUBLIC TO BE SHOCKED.

New York's great murder sensation promises to be exceedingly unfortunate in the tremendous immroal cesspool that it is to open in the trial of Harry Thaw for the murder of Stanford White, the famous architect, who though a married man who stood high in society, appears to have been a profligate of astounding character. His true character was not revealed till since the tragedy in which he lost his life, and the inference is that the half will not be known till the trial comes off, probably not before September. The New York papers are unanimous in following up the slimy trail of White. One report says:

"That Mrs. Thaw will take the stand in her husband's behalf, it is said, when he is put on trial, is practically admitted by counsel for the defense. If she does—and there is no unwillingness on her part—her testimony will, in all probability, rake up scandals which have slept for several years and which involve Stanford White and some of his intimate associates.'

It can be anticipated what shocking revelations are to come out in this noted trial, and certainly it will be unfortunate for the whole country.

LIQUOR DISEASE SURELY CURED

Drank Liquor Twenty Years and Was Physical Wreck and Money All Gone—Borrowed Money to Take Treatment.

The Keeley Institute, Greensboro, N. C.

To any unfortunate brother that can not control his appetite for drink or drugs, I want to give the advice to go to the Keeley Institute at Greensboro, N. C., and take the treatment. It certainly will cure you if you want to quit the bad habit. I speak from experience; I drank for 20 years; the older I got the worse I was. I tried my best to quit, but to save my life I could not. I was a complete wreck; my health ruined; my happiness gone; family ashamed of me; my business going to nothing; my credit failing fast; my money all gone. I had to borrow the money to go to Keeley, but it was the best money I ever spent; my friends and relations—brothers and wife—begged me for two years to go to the Keeley Institute, but I would not. I had a horror of the idea; I thought I would be disgraced, but at last my wife persuaded me to go, saying it had cured others and it might cure me. I entered the Keeley Institute at Greensboro, N. C., the 5th day of January, 1901. When I sobered up I found myself in the hands of gentlemen and friends. I never met more kind and attentive men than the officers and manager and physician of the Institute. The treatment cured me and made a man of me; it restored my health and happiness. I now have as happy a home as anybody. I have never wanted to taste of the stuff; I had two friends who had nearly killed themselves—one I am certain would not have lived sixty days if he had not gone to Keeley; they are both now in good health, sober gentlemen. I know it has saved three men from drunkard's graves, and it will save all who try it.

JOHN D. MARTIN.

BUTLER'S HAND.

The Charlotte Observer of yesterday remarks:

"The now famous Grant and Frazier nominations, for postmaster at Goldsboro and Greensboro, respectively, were not acted upon by the Senate and if these gentlemen are ever to hold the offices to which the President appointed them they must be re-appointed. As these appointments were regarded as Blackburn victories in the first place, the failure to act on them is now to be placed on the Butler side of the ledger."

Blackburn has a good chance to fined out whether the President will stick up to him in his fight against Butler. The only Republican Congressman might get Mr. Roosevelt to give Grant and Frazier recess appointment. The President would no doubt do that if Blackburn wins out at the Republican State convention at Greensboro next Tuesday.

CURRENT COMMENT.

—The graft microbe may have been eliminated from the Postoffice Department, but the larceny bug seems to be still flourishing.—Washington Post.

—When Scientist Burbanks gets through putting out the eyes of the potato he is recommended to try his hand on developing a watermelon with a handle.—Atlanta Journal.

—Two or three days before the Thaw-White tragedy, the Baltimore American asked, "What will be New York's next great crime?" The answer was not long in coming.—Norfolk Landmark.

—"The irony of fate was exhibited when President Roosevelt signed a bill allowing him $25,000 a year for travelling expenses on the same day upon which members of Congress had to bow to public opinion and cut off their supply of railroad passes.—Charleston News and Courier.

—During the past six months 2,298 miles of new railroad have been built in the United States. Texas led with 260 miles; Nevada with 226; Wyoming with 150, and Louisiana 148. In North Carolina 52 miles of track were laid. The projected lines in North Carolina indicate that there will be more building this year than in any previous year in this decade.—Raleigh News and Observer.

—Many of the wise ones who were intent on destroying the influence of Judge Adams have been insisting that Secretary Taft would not come to Greensboro on the occasion of the Republican State convention. For their special benefit we yesterday published a letter from Judge Taft to Judge Adams, saying that he would certainly be here. Do the wise ones want further proo..—Greensboro Industrial News (Rep.).

—The Democrats of the Second Virginia District congratulate the Democrats of the First North Carolina District upon having renominated the Hon. John H. Small for the National House of Representatives. The interests of these adjoining districts of Tidewater Virginia and North Carolina are almost identical. The development of either assists in the development of the other. Having found the right man, the First North Carolina District is doing the right thing in keeping him in Congress, where his influence is constantly rising to a point justified by his ability and the interests he represents—Norfolk Land mark.

—Blackburn stock is above par just now. His fight for chairman goes merrily along and it is claimed that he has right now more than a majority of the delegates instructed for him. Adams has carried Butler's territory, but Blackburn's friends say those counties have only a very small representation in the convention. For instance, Edgecombe and Halifax have only two votes each. The vote of Wilkes county is larger in convention than all of the First Congressional district. Blackburn insists that he is a child of destiny. So far he has made good, but he has Dick Hackett to tackle yet.—Greensboro Record.

TWINKLINGS.

—"Yes," said Mrs. Uppisch, boastfully, "we pay cash for everytning we buy there." "Yes?" replied Mrs. Knox. "Why is it, I wonder, that they are so careful about opening accounts with people."—Catholic Standard and Times.

—"Politics," said the ambitious young man, "puts many temptations in a person's way." "Yes," answered Senator Sorghum, "and the worst of it is that it is often difficult to discriminate between a temptation and an opportunity."—Washington Star.

—"No," said Lowe Comedy, "I decided not to go on the circuit with that new company." "Why, I understand the backer had considerable money," remarked Hi Tragerdy. "That was the trouble. He has too much to get stranded near at home and not enough to take us all the way out and back."—Catholic Standard and Times.

—"Tell me," said the inquisitive foreigner, "do Americans girls affect men's clothes?" "No," replied the gallant native, "not to any extent." "Well, well, is that really true?" "Well, of course; a little rouge may stick to the shoulder of a fellow's coat occasionally, but then it's easily brushed off."—Philadelphia Press.

—"Katharine," said Bob, as he brought his club chums down to the depot platform, "these are all my friends." "Glad to meet you, gentlemen,"replied the bride sweetly, "and I am sorry that you are going to be sick." "Sick?" echoed the crowd in astonishment. "Why should you think we are going to be sick?" "Oh, because soon after the honeymoon a married man always finds a great many sick friends to sit up with."—Columbus Dispatch.

A STORY OF PROGRESS

Six years ago Geo. O. Gaylord realized that his business had reahed the point that presented unusual opportunities of greater growth, and he laid his plans by building and moving into his present store on North Front Street which is a building of 49 feet front and one hundred and twenty-five feet deep and three stories high.

The location at the time was a little out of the trading section and it was generally surmised that his business would go to pieces because it was somewhat out of the range of other merchants. His reputation, however, was too well established. He moved his business to this seemingly out of the way location and with him went the trade.

He had been in business in this town for some ten years before beginning business with comparatively no capital and little or no experience, he has like the acorn now grown to be the oak and spreads the branches of his store over more floor space than any one men's store in North Carolina.

After being in this store for two years we found our floor space not large enough for our business and planned to build and did build another store three stories high with a frontage of 35 feet and a depth of 120 feet.

These twin stores he occupies alone and they are now filled to their utmost capacity.

Not satisfied; he is now planning to build still another additon to his store on a vacant lot in the rear to be 49 feet wide and 67 feet deep.

His business is increasing to such an extent and his departments becoming so cramped that he finds it a necessity to enlarge his store in this way to make room for his stock.

With this great amount of goods there must be represented a good assortment and his many departments are kept up full and complete.

He has a premium department which he has just been called upon to examine into as to the premiums given away within the last two weeks and the amount even surprised him. He cannot tell whether it pays or not, but he feels sure his customers appreciate it because they receive good and useful presents on their purchases while they cost them absolutely nothing.

This business is built up on a solid basis by dealing honestly, fairly and squarely with each and every one.

This store sells values and our merchandise sales grow daily.

This progress is no newspaper story. Look on the front of the big building on Front street and you will find only the name Geo. O. Gaylord on the store. He wants you to become a customer. He has goods to please any one and his assortment is so great than he can suit any one as to price.

In low prices and big values, he absolutely leads.

He keeps all classes of Summer goods and his stock is up to the minute.

Watch his progress. He has not reached the top yet. A few more years will unfold still greater surprises.

COME TO THE BIG DEPARTMENT STORE,

GOE. O. GAYLORD,

Proprietor.

SPIRITS TURPENTINE

—At White Oak mills, near Greensboro, on Saturday, John Lewey and a companion attempted to swim across the pond. The companion got across safely but when he looked backed Lewey was missing, having drowned.

—At Elkin on Saturday the plant of the Elkin Chair Company, which has been in bankruptcy proceedings, was sold under the hammer to J. G. Ray for $3,725. A new company has been organized to take over and operate the factory.

—Rev. H. M. North, for nearly three years the popular pastor of City Road M. E. Church, South, in Elizabeth City, preached his farewell sermon on Sunday. He goes to assume the duties of headmaster of Trinity Park School at Durham.

—A son of Frank Simmons, who lives south of La Grange, accidentally shot himself through the hand while driving home from town Saturday, and while handling a pistol. The ball passed through his hand and into the hip of the horse the young man was driving.

—At the Republican county convention at Shelby, Cleveland county, on Saturday, delegates to the State and other conventions were appointed but the convention refused to instruct the State convention delegates for Blackburn or any one else. Resolutions were adopted approving the administration of Roosevelt and the course of Representative Blackburn in Congress.

—The Republican primaries were bitterly fought out in Buncombe county on Saturday between the Blackburn and Adams-Rollins factions. The Adams crowd claims the victory. It is claimed by the Greensbor Industrial is claimed by Greensboro Industrial which have held primaries 12 have instructed for Judge Spencer B. Adams for State chairman, giving him 102 votes to 16 instructed for Blackburn.

A correspondent at Elizabeth City states that the people of Currituck county are becoming very active in their opposition to the Audubon Society. They claim that it robs them of their rights, since many of them are dependent upon game and fish for a livelihood. They have organized what they call a gunners' and fishermen's club, the members of which they declare will fight to the last ditch that game and fish may be free for all.

—Winston-Salem special, July 1: One of the leading Republican politicians in North Carolina is almost ready to predict that ex-Attorney General Z. V. Walser, of Lexington, will be elected chairman of the State executive committee at the Republican convention in Greensboro, July 10. He says the rank and file of the party want a man who is not mixed up with either of the two factions and that the name of Zeb Walser is being quietly discussed for the chairmanship. A few members favored him when Mr. Adams was elected by the executive committee after Mr. Rollins resigned.

—Lexington correspondence: Between Linwood and the Yadkin river, the Southern Railway has begun to run trains over the double track, which has been about completed for that distance. In all there are about seven camps engaged in preparing the dobule track through Davidson county, and the work is progressing rapidly by the aid of steam shovels and all the latest machinery. Just below Lexington is a camp of foreign labor. Hungarians and Italians, who make good hands and are giving no trouble. Messrs. Lane Brothers, contractors, have applied for more foreign labor which is expected to arrive soon.

—The Republican county primaries were held in Buncombe county Saturday afternoon and in Asheville Saturday night. At a late hour Saturday night it could not be told whether Butler and Rollins or Blackburn and Harris had won. There was considerable bitterness among the factions. It had been believed that trouble would occur at the polls, but aside from one fight in Hazel Ward personal difficulties have been avoided. At Hazel W. E. Logan one of the prominent Republicans of Buncombe and commonly known as an insurgent, fought with John McElroy, game warden for that section, who also holds a government job and is an organization partisan The men fought in middle of the road with their fists, until separated. No serious damage was done. McElroy marched a lot of negroes to the primary and attempted to vote them, whereupon Logan objected and the fight followed.

—At Asheville on Saturday, Hon. William T. Crawford, of Haywood county, was nominated by acclamation when the Tenth Congressional District Democrats met in convention. The convention was largely attended and much enthusiasm was manifest. A lively tilt occurred between Frank Carter, of Asheville and Frank Ray, of Mason, over the endorsement of William J. Bryan as the Democratic presidential nominee in 1908. The matter of endorsing Bryan was debated for more than half an hour, when the resolution was adopted by a vote of 194 to 73. During the dissensions there was much cheering and several times the demonstrations interrupted the speakers. It was a very Bryan day among the Democrats of the Tenth and withal a Bryan convention. A resolution was voted down advocating the free and unlimited coinage of silver.

—At the Forsyth county Republican convention at Winston-Salem on Saturday the Adams-Butler faction completely out-generaled the Blackburn forces. When the convention opened it was evident that the followers of the Congressman from the Eighth district were in the majority but the leaders were by no means equal to the occasion. Postmaster Z. A. Reynolds and his brother, Stamp Clerk J. F. Reynolds, the latter being chairman of the county executive committee, marshaled their forces successfully. A resolution endorsing Blackburn for State chairman had been drafted and placed in the hands of a farmer, but the convention adjourned before it was read. The Blackburn crowd are mad, but they are hoping that half of the twenty-two delegates to the State convention will be for Spencer, though no instructions were given for anybody. Just what the Adams people wanted.

—Besides a big 4th of July celebration at the Guilford Court House battle ground, this is a strenuous week for Greensboro. The Democratic convention of the Fifth Congressional District met there yesterday and renominated Congressman W. W. Kitchin. Today at noon the State convention of the Democratic party will meet in the Grand Opera House. The convention will be called to order by State Chairman F. M. Simmons, and Locke Craig, of Asheville, will be the temporary chairman. The only business that will claim the attention of this convention will be that of renominating Corporation Commissioner Franklin McNeill, and ratifying the nominations for four judicial conventions for judges, and the adoption of a State platform. This latter item of business will probably consume the greater part of the time of the State convention. The nomination of officers will probably be made at the afternoon session and the adoption of the platform at the evening session. State Chairman Simmons says that he thinks all of the business of the convention can be disposed of at one session. The other conventions of the week will be the Democratic and Republican county conventions, both of which will be held on Saturday, July 7. The Republican convention is to elect delegates to the State, congressional and judicial conventions. Next Tuesday the Republican State convention will be held.

MR. T. S. TOLER DEAD.

Highly Esteemed Citizen Passed Away Yesterday Morning—Funeral.

Friends in this city will learn with much sorrow of the death of Mr. Thomas S. Toler, which occurred yesterday morning at 11 o'clock at his home on Red Cross street after an illness of three weeks. Mr. Toler was held in the very highest esteem by a host of friends in this city and his taking away is a sad blow to the family to whom he was ever tenderly devoted. Many callers at the home yesterday to offer their condolence attested the high esteem in which he was held and the sympathy which is universally felt for those bowed down so lowly in their grief.

Mr. Toler was in the 59th year of his age and was a native of Richmond, Va. He had been a resident of Wilmington for nearly 35 years and during that time had won the confidence and esteem of the community. Mr. Toler is survived by two sons and one daughter, Messrs. Thomas and John F. Toler, and Miss Bessie Toler. There are alo surviving a brother, Mr. John Toler, of Richmond, Va., and four sisters, Mrs. Robertson, Mrs. Pollard, Mrs. Johnson and Mrs. Julia Holloway, all of Richmond, the last named being at his bedside when he passed away.

The funeral will be conducted at 5 o'clock this afternoon from the residence, No. 310 Red Cross street, and the services will be conducted by Rev. N. M. Watson, pastor of Grace M. E. church. The interment will be in Oakdale cemetery.

MRS. H. E. TRUELOVE DEAD.

Dead Woman Entered Into Rest Sunday—Funeral Yesterday.

The friends of Mr. H. E. Truelove will sympathize with him in the loss of his wife, whose death occurred at 8 o'clock Sunday evening at the family residence, 819 Chestnut street. Mrs. Truelove had been ill for some time and her death while not unexpected came nevertheless a great shock to her family and many friends. A peculiar sad coincidence is that she died on her forty-third birthday. Mrs. Truelove leaves to mourn their loss a husband and four children—Misses Bessie and Lillie and Masters Henry and Liston; also a widowed sister, Mrs. C. A. Truelove, of Rowland, N. C., and a brother, Mr. W. B. McPhaul, of Moultrie, Ga., both of whom were with her in her last illness.

The funeral services were conducted from the residence yesterday afternoon at 5 o'clock by Rev. A. D. McClure, D. D., pastor of St. Andrew's Presbyterian church, assisted by Rev. W. R. Rexford, pastor of Market Street M. E. church.

The remains were tenderly laid to rest in Bellevue Cemetery, near the graves of two sons of Mrs. Truelove, who departed this life only a few months ago. The floral designs were many and very beautiful. The pallbearers were Messrs. W. J. Meredith, George H. Howell, B. G. Emple, M. O'Brien, A. B. Guyton and J. Wannamaker.

Southport's Yacht Races.

The sailing and naptha launch races were scheduled for the forenoon at Southport's big fourth of July celebration to-morrow, but in deference to requests from Wilmington people who expect to attend, the committee of arrangements met last night and changed the hour for the races. The sailing races will begin at 3:45 P. M. and the naptha boat races will commence at 4:30 P. M.

BOARD OF ALDERMEN

(Concluded From First Page.)

no progress had been made in that respect. The matter of water hydrants on Market street, beyond Tenth, was brought up and it was the opinion of the Board that if the company would put down the hydrants free of charge the city would pay the usual rental. Mr. S. Behrends was present and spoke in favor of accepting the proposition. Mr. King moved that hydrants be placed on Eleventh, Twelfth and Sixteenth and Market streets. Mr. Price moved that another be placed at the plant of the Standard Turpentine Company, which offers to give $125 toward the work. It was finally decided to leave the whole matter to the Water Works Committee in consultation with the Chief of the Fire Department.

The Gasolene Ordinance.

Chairman Price, of the Ordinance Committee, offered an ordinance regulating the sale and storage of naptha, gasolene, etc. It was approved by the Fire Underwriters and would result in a great saving in the way of insurance. Mr. J. P. Hopewell was present and opposed the restrictions, saying that only a few insurance agents were at the bottom of the agitation. He presented an endorsement from gasolene users, stating that in their opinion, there was no damage in the proper handling of the stuff. Chief Schnibben spoke of the need of regulations which were also urged by Mr. Price. After discussion the matter was postponed until the next meeting of the Board. The sections in the proposed ordinance are as follows:

Section 23. No person, firm or corporation shall store or keep for sale in any store or dwelling within the corporate limits of the City of Wilmington at any time more than one gallon of naptha, benzine or gasolene, or 10 pounds of calcium carbide, without first obtaining a permit from the Chief of Fire Department, upon a written application for such permit, stating the location of the premises and the quantity of naptha, benzine, gasolene or calcium carbide, proposed to be stored or kept for sale in such store or dwelling, and where one gallon or less of naptha, benzine or gasolene is kept inside a building, it shall be kept in approved metal cans, same to be approved by the Chief of the Fire Department, and the vessel containng such naptha, benzine or gasolene shall be filled outside of said building, but this section shall not apply to manufacturers storing or keeping for sale in bulk, naptha, benzine or gasolene, which are the products of their own manufacture, nor to wholesale dealers selling to retail dealers for re-sale, naptha, benzine or gasolene, in quantities of ten gallons and over.

Section 25. Manufacturers storing or keeping for sale in bulk within the corporate limts of the City of Wilmington naptha, benzine or gasolene, which are the products of their own manufacture, and wholesale dealers in naptha, benzine and gasolene, selling to retail dealers for re-sale, shall store and keep such naptha, benzine and gasolene, when stored or kept in quantities exceeding twenty gallons, in iron or steel tanks properly equipped with pipes for ventilating the same, under and subject to the provisions of sections 21 and 22 of this article as to the manufacture, refining, mixing, storing, or keeping for sale of oils or fluids composed wholly or in part of any of the products of petroleum.

Section 26. Naptha, benzine and gasolene kept for sale within the corporate limts of the City of Wilmington by retail dealers shall be stored in quantities not exceeding one hundred gallons at any one time, and then only in metal tanks buried at least two feet under the ground, provided, however that no retail dealer shall sell or deliver any quantity of such naptha, benzine or gasolene, to any customer except in metallic cans with proper appliances for closing the aperture when such cans are not being used for filling or emptying, and provided, further, that no retail dealer shall draw any quantity of naptha, benzine or gasolene from such metal storage tanks, for sale or otherwise, after dark, or in the daytime, where artificial light is being used.

Section 27. Where the system known as gasolene vapor gas lighting is used in any building, the tanks and reservoirs used in connection therewith shall be located outside of and three feet from any opening in such building, and shall be boxed or enclosed under lock and key and below the level of the lowest pipe in the building used in connection with such lighting apparatus.

Chairman Price also offered an ordinance prohibiting the unloading fish scrap and other fertilizer, except in bags, from May to the first of October. The ordinance was adopted.

Mr. Price offered a resolution that the east side of Fifth, between Dock and Orange streets, be graded and that $500 be appropriated for the purpose of carrying into effect the resolution. The Mayor called attention to the fact that there were some legal points involved and Mr. Price stated that he had already consulted the city attorney.

Mr. Price offered a resolution that the tax books be kept open a week longer for the purpose of listing city taxes and that after that time, that a double tax be charged against all delinquents.

The ordinance allowing three feet of the sidewalk on Front street, between Dock and Orange, to be used by hucksters was extended to allow three feet all over the city. Alderman Brown offered an amendment making the three feet apply in front of any market or store. Alderman W. E. Yopp made a second amendment, restricting the space to two feet. Upon objection of Alderman W. H. Yopp, the matter went over until the next meeting.

S. J. Jones was granted transfer of license from Mr. Craig, in Fourth Street Market.

The special committee in regard to an architect holding the positon of building inspector was granted further time.

The suggestion of the Board of Audit and Finance relative to bill posters' tax was adopted.

Petition of citizens relative to extension of Dock street drainage was referred to the Sanitary Committee.

The Standard Oil Company was granted permission for an extension of its pipe line to the new oil tank as previously allowed.

The Streets and Wharves Committee was requested to remedy the sanitary conditon of a stagnant pool at Ninth and Orange streets.

An extra appropriation of $10 per month was allowed to John Sellars, a member of the street force, to see that mules of the city are properly looked after at the City Livery Co.

DR. ELISHA PORTER

(Concluded From Page One.)

building of his section and the State. He served more than one term in the State Legislature and his counsel was always sought in matters of a public nature. During the war Dr. Porter belonged to the Third North Carolina Infantry and was a Lieutenant in Company E., of that command. His comrades speak of him as a brave and fearless defender of the fortunes of the South in that bloody conflict. He was wounded thrice at Chancellorsville, being both shot and bayonetted, carrying with him to the grave the marks of that terrible conflict in which he carried himself with such conspicuous gallantry. Only last May his comrades of the Third North Carolina Infantry Association, the oldest veterans' organization on either side during the Civil War, held their annual reunion at Dr. Porter's fine old country home and speak of it as one of the most pleasant gatherings in their lives.

The remains of Dr. Porter will be brought from his home at Rocky Point on this morning's train and will be met by the Veterans' Camp, of this city, and escorted to Saint Andrew's Presbyterian church, whence the funeral will be conducted at once by the Rev. A. D. McClure, D. D., the pastor, and a warm personal friend of the deceased. A special quartette, composed of Mrs. F. A. Muse, Miss Maude Bulluck, Mr. A. S. Holden, Mr. C. E. Vale with Miss Chasten as organist, will render the funeral hymns. The interment will be with the honors of the Masonic fraternity of which Dr. Porter was a highly valued member, holding his membership with the Onslow Lodge, which will also come over for the service. Official notices for the assembling of the Veterans and the Masons will be found elsewhere in to-day's paper. A very large number of friends in this city will attend the services. The interment will be in Oakdale cemetery.

Free Trading Stamps.

On last Thursday the C. W. Polvogt Co. advertised that they would give three trading stamps for one during the remainder of their inventory sale. The public appreciated this liberal offer and the past three days they gave away nearly sixty thousand trading stamps. The Polvogt Co. is the only dry goods store in the city that gives trading stamps. Those who have not been saving the trading stamps will do well to begin tomorrow morning by making purchases at Polvogt's, who will continue to give three stamps for one during the entire week. The low prices made on their entire stock on account of taking inventory, together with the three stamps for one, will draw crowds the entire week and "The Store That's Always Busy" will be busy.

The County Pension Board.

The County Pension Board, composed of Col. Jno. D. Taylor, Col. W. L. DeRosset, Capt. George W. Huggins and Capt. R. M. McIntyre, was in session yesterday afternoon at the office of the Clerk of the Superior Court, considering applications for recommendation to the State Board. A goodly number of names were considered but only the following were favorably acted upon: Fannie R. Bate, wife of R. C. Barden; James O. Ormsby, W. D. Rhodes, Chas. K. Johnston, W. T. Atkins and Fannie E. Orrell. The Board took a recess until next Monday afternoon when further names will be considered.

Negro Blind Tiger Bound Over—Other Cases Yesterday.

In the police court yesterday Calvin Hall, colored, was bound over to the higher court upon charges of selling liquor on Sunday and without license. Hall lives on Ninth, between Nixon and Taylor streets, and was dispensing the "buge" from there. He was required to give $25 bond in each case.

Bryant Jones and Oliver Williams, colored, charged with gambling in a shanty car on the railroad yards, were represented by Herbert McClammy, Esq., and were found not guilty.

The other cases yesterday were largely those of the ordinary Saturday night drunks and the defendants were fined from $2.65 and costs to $5 and costs.

The elaborate programme at Southport has already been published and at either place the visitor will find something pleasant and entertaining.

A Frightful Runaway.

Just at dusk yesterday a number of persons witnessed a frightful runaway on Market street. Fortunately no one was hurt but the escape was miraculous. Mrs. S. J. Davis and child were in a phaeton being driven by a colored man when the horses took fright about Fifth street and dashed out toward the turnpike at a terrific gait. The driver remained cool throughout and kept the runaway in the street until Seventeenth was reached. There it is reported that the colored man had the rare presence of mind, finding himself unable to check the frightened animals, to reach forward and cut them loose from the phaeton. In that way no one was hurt in the slightest, though naturally Mrs. Davis suffered much from the nervous shock.

TWENTY-THREE KILLED IN RAILROAD WRECK

Continued from page eight.

Miss Antonia Dugro, daughter of Judge and Mrs. P. Henry Dugro. The couple were on their wedding trip. Mr. Cossitt graduated from Princeton University just a few days prior to his marriage. Stanford White, who was shot to death by Harry K. Thaw, was one of the guests at the wedding.

A disavowal of liability in connection with the wreck of the American line express at Salisbury, England, yesterday, was made today by the directors of the International Mercantile Marine, which controls the steamship line. The directors take the ground that at the time of the accident the passengers were out of the jurisdiction of the International Mercantile Marine and that the London and Southwestern Railroad Company had them in its care.

The officers of the steamship company here were visited and besieged today by friends and relatives seeking news of passengers who sailed on the steamer New York.

Latest Developments.

London, July 2.—Albert W. Swalm, the American consul at Southampton, telegraphed to the Embassy from Salisbury this evening that only two bodies of the victims of Sunday's railroad disaster were unclaimed; that all the injured were doing well; that six embalmers had been employed; that the coroner's identification of the bodies of the American victims was complete, and that everything was being well looked after by the authorities.

This evening's bulletin from the infirmary says the cases of R. S. Critchell, of Chicago; Miss M. Rask, of Norfolk street, Park Lane, London, and Miss I. S. Griswold, of Borough Heath, England, are critical. Not much hope is entertained for the recovery of Mr. Critchell.

The inquest was held in the City Hall. The American consul at Southampton, Albert W. Swalm, looked after the interests of the Americans.

Immediately after the jury had been sworn they proceeded to the railroad station to view the bodies. Reporters were not allowed to accompany them. When the jury returned, formal evidence regarding the identification of the bodies was taken and the inquest was then adjourned for a fortnight.

Every independent effort to discover the cause of the accident has thus far failed and the officials this afternoon said they were also in the dark. Railroad engineers, experts and representatives of the coroner, and the Board of Trade Eaminer, examined, inch by inch, the rails on which the disaster occurred but apparently with no result. The confusion was accentuated by the death of the engine driver and stoker and the cause of the derailment will be enveloped in doubt despite all theories until the Board of Trade inquiry and the coroner's inquest are concluded.

Only relatives of the injured, or those representing them, are admitted to the infirmary, which, for the first time in its history has resorted to the bulletin board system.

CANAL BONDS TO BE ISSUED

Continued from page eight.

the highest prices will receive the first allotment. Of two or more bidders offering the same price, those asking for the smaller amounts of bonds will receive priority in allotment. The department reserves the right to permit bidders offering the highest prices to increase the amounts of their purchases.

The bonds will be ready for delivery about 1, 1906.

New York, July 2.—The issuance of a circular by the Secretary of the Treasury inviting subscriptions by July 20 to $30,000,000 of Panama Canal bonds was regarded on the Stock Exchange as a complicating factor in the glut in the bond market. The recent prosperous course of the government revenues and the surplus in course of accummulation in the Treasury have led to an assumption in some banking quarters that the immediate needs of the canal work would be supplied out of the Treasury's cash balance and the flotation of bonds for the work postponed to a more propitious time. This hope is disappointed by the day's event. The pressure of liquidation became acute in the late dealings and the character of the selling gave evidence of distress which was believed to reflect money difficulties on the part of some speculative holders of long stocks.

KEEPS THE KIDNEYS WELL.

Health is Worth Saving and Some Wilmington People Know How to Save It.

Many Wilmington people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kiney Pills. Here is the statement of a Wilmington citizen who has reclaimed good health by the use of this remedy:

J. E. Bloodworth, residing at 30 South Front street, and employed at 123 Princess street, says: "I used Doan's Kidney Pills and they have proven to be a very valuable remedy and I believe I am safe in recommending them. My back and kidneys have given me great trouble. I thought I had rheumatism. I had shooting pains through my back and sides which often made me yell right out. If I stood, sat or lay down or kept in one position for any length of time it was almost impossible for me to move on account of the great pain. I heard some one speak of Doan's Kidney Pills and I sent down to Bellamy's drug store and got a box. They completely removed the pains. They are without doubt a valuable remedy for backache."

THE RAIDICALS HELD CONGRESS

Great Stride Toward Centralization and Eager For More—Iron Tooth Laws Threatened.

(New York Times.)

Washington, June 29.—When Senator Beveridge told the Senate this afternoon that the two provisions of the Meat Inspection bill on which it was about to yield to the House would be enacted into law at a not much later session he unconsciously gave emphasis to the most significant characteristic of the Fifty-first session—the willingness and the desire to legislate upon propositons which involve the extension of Federal control.

The Fifty-ninth is a centralizing Congress. The steps that have been taken in that direction by its predecessors are short, indeed, in comparison with the lengths to which it not only was willing, but eager to go. The session just closed has been extremely busy, and has seen the enactment of not a few measures to which unusual importance can be jutly ascribed.

Of these, three, which will rank in public estimation at the very top of the long list, have all been based upon the same ground and all employ the same power. They are the aRilroad Rate bill, the Pure Food bill, and the Meat Inspection bill, and the basis for them all is that little clause in the Constitution which reserves to Congress the right to regulate commerce between the States.

That clause has become a new engine for the construction of great works in the hands of the Fifty-ninth Congress. Never before has so broad an interpretation been put upon it; never before has its mantle been held to cover so wide a range. And with the closing hours of the session that has done so much with that clause already in sight Senator Beveridge forcibly assures the country that soon there will be a still further employment of that power. Almost at the very time that Beveridge was making this prediction in the Senate, Representative Mann was taking in a somewhat similar vein in the House. His subject was the Pure Food bill. He was commenting upon the elimination by the conferees of the section providing for the establishment of standards of food by the Secretary of Agriculture, and as he expressed his regret that it had had to go he also expressed his expectation that a future session would make it law.

All this means that at last Congress has taken hold in earnest of the problem of controlling the great combination of railroads and other industrial enterprises, in a word, of controlling the trusts, and has found that this brief clause of the Constitution is to be a great lever. The threat of Senator Bailey to the Standard Oil in New York that if they violated this law they would get one "with iron teeth in it," was not idle, for in a score of ways this session has manifested a temper in Congress that needed no spur to make such a threat promptly effective. With the election of the Sixtieth Congress coming on and the temper of the people throughout the country backing up the action of this session as it does, there is every expectation that the next Congress will be fully as determined to continue the work thus begun as this Congress has been to begin it.

FARMER AND HORSE BOTH DEAD

Ghastly Discovery in Field Just Below North Carolina Line.

(Chadbourn N. C. Trucker.

Rev. L. B. Boney, who returned yesterday afternoon from a trip down in Horry county, S. C., tells of a very ghastly find in the neighborhood of Green Sea, S. C.

A. Mr. Strickland, in passing a field was attracted by buzzards flying up from among the growing corn, and went into the field to investigate. Near the centre of the field he found the dead body of Mr. Samuel L. Granger, the owner of the farm, the body being horribly mutilated by the buzzards and insects, and a few yards away lay the man's horse, also stiff in death and still hitched to the plow.

Mr. Granger was a bachelor about 70 years of age and lived alone. He was seen last alive Thursday of last week when he went to the house of a neighbor to borrow a plow wrench.

THE COTTON MARKETS

New York, July 2.—The cotton market was nervous and irregular during the day's trading, with the tendency to even up commitments for over the government report to-morrow and the holiday on Wednesday, although there was also some selling by local professionals who expected that the report would prove bearish. The market closed steady at a net decline of 5 to 8 points. Sales estimated at 150,000 bales. The opening was steady at an advance of 2 points to a decline of 2 points, which was better than due on the cables. At first the market held around the opening figures with the old crop months inclined to be relatively steady on covering of shorts both here and in New Orleans, but the weather was good, private accounts bearish and with no fresh buying of consequence prices soon eased off. Selling at a net decline of about 6 to 9 points during the early afternoon on rumors of rains in Texas where further moisture would be considered beneficial, the market rallied a few points on the new crop months as a result of covering, while July became relatively easy and sold off to 10.17 or 13 points net lower from which it rallied to 10.24 before the close. Later positions closed only a couple of points up from the lowest.

Receipts of cotton at the ports to-day 4,153 bales against 5,482 last week and 7,473 last year. For the week 25,000 bales against 30,625 last week and 62,549 last year. To-day's receipts at New Orleans 295 bales against 1,319 last year and at Houston 1,214 bales against 2,181 last year.

GOVERNMENT SHOW AT JAMESTOWN

Commission to Meet in Washington To-day to Make All the Preparations

TO ERECT FIVE BUILDINGS

Replica of Washington Monument Will Also Be Reared on Exposition Grounds—Other Arrangements to Be Set on Foot.

Washington, July 2.—A meeting of the government commission designated to prepare for the United States' participation in the Jamestown Exposition next year, will be held to-morrow. The commission consists of Secretary Shaw, chairman, and Secretaries Taft and Bonaparte, with Assistant Secretary Edwards, of the Treasury Department, as secretary.

At the meeting to-morrow it is likely that the commission will appoint a government board to have direct charge of the work at the exposition; authorize the supervising architect of the Treasury to prepare plans for the five government buildings to be erected at the exposition; and make such other preliminary arrangements for the government's participation in the exposition as may be necessary.

The buildings to be erected will be for the accommodation of the government exhibit, the life saving service, the fisheries exhibit, for a rendezvous for soldiers and sailors, and for a rendezvous for distinguished visitors, officers and civilians of foreign governments. Already provision has been made for the erection on Jamestown Island of a replica of the Washington monument about one hundred feet high. Only ten months will elapse before the buildings will have to be ready, and it is the intention of the commission, therefore, to press the work on them as rapidly as possible.

The naval board, composed of Admiral Harrington, Captain Potter and Captain Pillsbury, charged with the preparation of plans for the naval participation in the Jamestown Exposition, have held a preliminary meeting at the New York navy yard and outlined the work to be undertaken. The representatives of several foreign countries have shown much interest in the plans, as the extent of the American naval display will in a measure guide their governments in sending ships or fleets to Hampton Roads during the exposition. The board, of course, wishes to make as good a showing as possible, and it is now considering the list of ships available for the demonstration.

Ship's Lateness Saved Many.

The late hour of the New York's arrival at Plymouth saved many lives. She carried more than 60 travelers for London, but many of them elected to travel on comfortably to Southampton in preference to the late landing at Plymouth and the long night ride across the country.

The darkness and incredible destruction made the work of rescue exceedingly difficult. Lamps and torches were brought to light the desolate scene. The station was converted into a surgery and the platform was made a mortuary. Several of the dead and injured were imprisoned in compartments and it was necessary to saw away the partitions in order to effect their release. Others were caught under the heavy wreckage. Several of the bodies were badly mangled and one woman was decapitated.

All the physicians in Salisbury were summoned and devoted themselves to attendance upon the wounded.

The body of the engineer was found on top of the fire box, charred beyond recognition. It was necessary to saw away parts of the compartments of the railway coaches in order to release the survivors and to secure the bodies of the dead. In one compartment all of the passengers except two were killed, and the rescue of the survivors was exceedingly difficult.

Among the dead was Louis Sassier, of Trumbull, Conn., near Bridgeport. Editor of two magazines, The Electrical Review and the Engineer. He was 45 years of age, and leaves a wife. He had gone abroad on business matters and expected to be away but a comparatively short time. He was well known in New York circles.

Another of the victims was Frederick Henry Cossitt, of New York. He was only 21 years of age, and was married June 18 in New York city to

SENATOR LODGE BEFORE JURY

His Private Secretary Sentenced to Workhouse for Stealing Campaign Funds.

RILED DISTRICT ATTORNEY

Senator Belittled Case Against Another District Attorney Who Is Indicted for Making Contributions to Republican Campaign Fund.

By Wire to the Morning Star.

Boston, Mass., July 2.—United States Senator Henry Cabot Lodge, who was summoned to appear before the grand jury of Suffolk county in an investigation into campaign contributions by District Attorney John B. Moran, came to the court house today. The Senator had been called to appear to-morrow, but arrangement was made to meet the District Attorney to-day instead.

The investigation is a development of the case of Robert G. Proctor, who last week was convicted of the larceny of $225 which John C. Bestgen, of Quincy, claimed he had given Proctor, who was Senator Lodge's secretary, as a contribution to the Republican State campaign fund in 1904. Several prominent Republicans, including officers of the State Committee, were summoned to appear before the grand jury to-morrow. Senator Lodge was escorted into the grand jury room by the District Attorney. He remained for about forty minutes. Upon departing he said that he could not disclose the nature of the questions asked him. He could say, however, that the subject seemed to him quite unimportant and one of which he could give no information. He said it was his understanding that the District Attorney's purpose was to secure the testimony of the members of the Republican State Committee concerning certain campaign funds.

When District Attorney Moran learned that Mr. Lodge had expressed his opinion that the matter was unimportant, Mr. Moran said with considerable heat: "If perjury is unimportant then the subject matter of this investigation is unimportant."

Judge DeCourcey, in the Superior Court, before whom Proctor was tried, to-day refused to grant a new trial for Proctor. Later Judge DeCourcey sentenced Proctor to serve ten months in the House of Correction. It is understood that the case will be carried to the Supreme Court.

All bids and requests for information should be addressed to the Secretary of the Treasury, Division of Loans and Currency, and the envelopes enclosing them should be plainly marked, "bids for canal bonds."

RADICALS AFRAID OF EXTRAVAGANGE

Tawney Rallies Out Another Excuse for Big Appropriations by Congress.

LIVINGSTON EXPOSES TRICK

Democratic Member of Appropriations Declares Extravagant Appropriations is Scheme of Stand-Patters to Prevent Any Reduction of Tariff.

Washington, July 2.—Representative Tawney, chairman of the House Committee on Appropriations, has prepared a detailed statement concerning the appropriations for the fiscal year beginning July 1, 1906, made by Congress during the session just closed in which he claims that the per capita cost of government in the United States, including Federal and State, is less than that in any European country.

Mr. Tawney enters upon an analysis to show the various channels into which the total appropriation of $880,183,301 will be diverted. He begins by deducting $139,456,415 provided for the sinking fund, the Panama canal, etc., showing that the real appropriation for the conduct of the government for the fiscal year is $740,726,886. To meet this demand he estimates that the total revenues (customs, internal and postal) will be $781,573,364. The aggregate appropriations is $60,000,000 in excess of that for last year.

Mr. Tawney comments as follows on the volume of the appropriations:

"While the expenditures of our government are constantly increasing, and while the appropriations made therefor by Congress are in the aggregate very large, yet, when we take into consideration the marvelous growth of the country, the extent to which the people demand that the Federal government shall perform services that should be paid by the States, none but the unthinking or misguided who do not stop to consider the care with which the estimates for appropriations for the public service are scrutinized by the several committees having jurisdiction of appropriation bills, can find any reason to criticize appropriations made during the session of Congress."

In a statement made for the Democratic minority, Representative Livingston makes a comparison of the expenditures provided for by this Congress, $880,183,301, with the expenditures of 1898, the first year of President McKinley's administration, when the figures were $528,735,079—a difference of $351,448,222. Commenting on this showing Mr. Livingston says:

"This growth in appropriations sustains the contention that the Republican party stands for extravagance in public expenditure, in order to use that extravagance as a cloak for their more objectionable purpose of maintaining a high protective tariff to favor the trust combinations of manufacturers of the country. A reduction of expenditures, they well know, would compel a commensurate reduction in taxation, and to that extent a lowering of the Chinese wall of protection that now surrounds the great body of consumers, who constitute the larger portion of our population, and compel tribute from them to the favored classes."
